SUMMER WORKSHOP ON CYBER-SECURITY

July 14 - 18, 2014

TEXAS TECH UNIVERSITY™

ABOUT THE PROGRAM The Center for the Science and Engineering of Cyber Security in the Department of Computer Science at Texas Tech University and the Center for Security Studies at Angelo State University will be offering a summer workshop in the area of Cyber-Security to faculty, instructors, and teachers from community, private, and minority colleges and universities. The program consists of the following themes:

- Cyber Security Fundamentals
- Information and Data Security
- Network Security
- Software Security
- Smart Grid Security
- Cyber Evidence and Forensics

WHO CAN APPLY? To be eligible for this summer workshop, you must:

1. Be a faculty/instructor/teacher lecturing at community, private, or minority two or four year colleges
2. Have a related IT, law, or business degree, diploma, or certifications.
3. Minorities including Hispanic and women are strongly encouraged to apply.

BENEFITS The participants will receive up to $2,000 in the form of reimbursement to cover their transportation, accommodation, and meal for their participation in the workshop. The participants will also receive a certification for attending the workshop.

DATE AND LOCATION The 2014 Summer Workshop on Cyber-Security will be held July 14 - 18, 2014 on the main campus of Texas Tech University in Lubbock.

HOW TO APPLY? Visit www.depts.ttu.edu/cs/research/csecs/workshop/ and fill out the online application form.

APPLICATION DEADLINE April 15, 2014

The workshop has limited capacity for the enrollments. Please submit your application as early as possible to reserve your seat.
